ABOSENT24 - GROWING WITH YOU

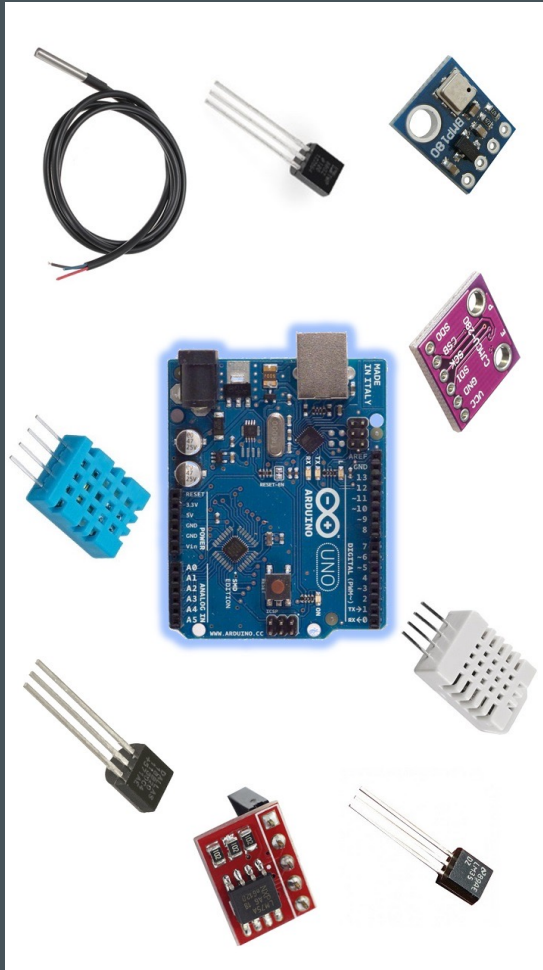

- Aborent24 is a forward-thinking technology company dedicated to providing cutting-edge solutions in the fields of IoT (Internet of Things), sustainability, resilience, and human-centric design. Our mission is to empower businesses and organizations to thrive in an ever-evolving digital landscape while making a positive impact on the world. UHU Mobility is our brand for mobility technologies.

IOT MODULES

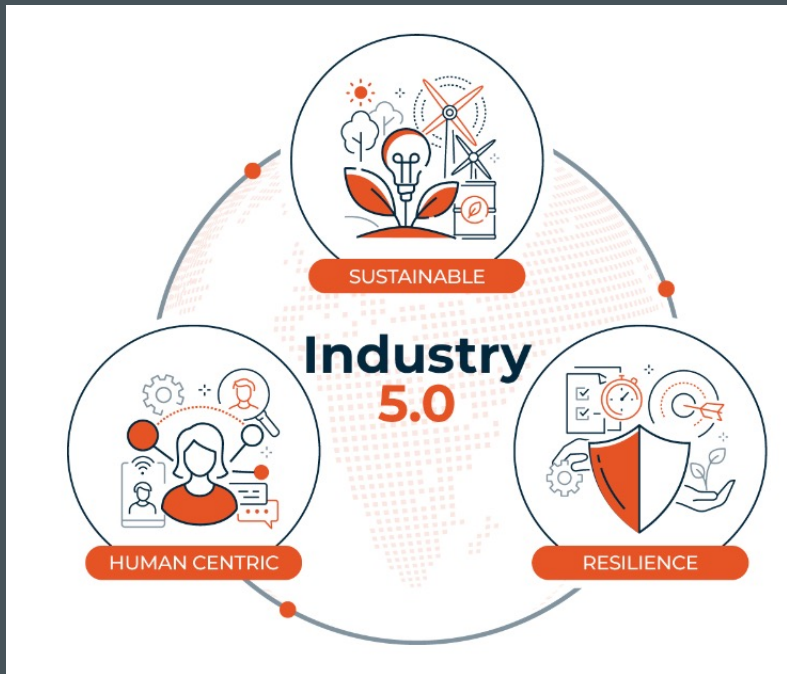

- Our IoT Modules are the backbone of our offerings. They provide the foundation for seamless connectivity, real-time data collection, and enhanced user experiences. Whether you are in manufacturing, assembly, or software development, our IoT Modules are engineered to elevate your products.

SMART SENSORS

- Explore the capabilities of Smart Sensors. They enable real-time data collection, leading to profound insights, improved automation, and enriched user experiences. Discover how our Smart Sensors can make your products smarter and more efficient.

CONSULTANCY

Sustainability

- We specialize in sustainability solutions, helping businesses minimize their environmental footprint.
- Our strategies promote eco-friendly practices and responsible resource management.
- Together, we can create a more sustainable future for generations to come.

Resilience

- Resilience is at the heart of what we do. We equip you to withstand challenges and thrive in uncertainty.
- Our expertise ensures your organization's ability to adapt, recover, and prosper.
- We build resilience that safeguards your future.

Human Centricity

- People are at the core of your success. Our approach places human experiences and well-being at the forefront.
- We design solutions that enhance customer satisfaction, employee engagement, and social responsibility.
- Your success is driven by your people.
