CHALLENGE

The green services/products are expensive!
We believe that the energy transition has to be available to everyone.

Services/Products cost

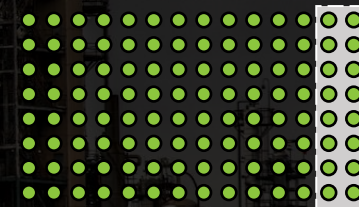

Zero emission services/products cost

Green premium cost

Zero emission services/products cost with COESA

Vision

We streamline the energy transition, for the Earth and for us.

Mission

We propose to our customers the best energy efficiency solutions with financial incentives and turnkey solutions.

We allow the energy transition to everyone.

What we do

- > We develop industrial and investment Photovoltaic Plants (size >150kW)
- > Energy efficiency projects for Public Administration (schools, municipalities buildings, relamping, etc)
- > Energy efficiency projects for Residential (Incentives, thermal plants, thermal coating, PV, batteries, etc)

**ANNUAL
TURNOVER**

Ten years of growth and experience.

~45 mln €
