Empower others to create impact

WELCOME STATEMENT

Hello Everyone,

At Kimitisik, we extend a warm and enthusiastic welcome to you. As a vanguard in the realms of education and innovation, we are dedicated to shaping a future where learning and progress intertwine seamlessly. As you delve into our brochure, you will encounter a tapestry of experiences that reflect our 'Yes, and' mindset – where collaboration knows no limits – and our 'less is more' philosophy, emphasising focused efficiency. With a presence spanning continents and a network of partners around the globe, Kimitisik is a hub of possibilities that transcend borders. We invite you to explore, engage, and envision the boundless potential that lies within our world of education and innovation.

Regardless of your background, expertise, or aspirations, Kimitisik is here to empower you, connect you, and provide you with the tools and platform to realise your potential and leave an indelible mark on the world. **Educators**, your dedication to nurturing the next generation of leaders is at the heart of our mission. **Learners**, your thirst for knowledge and desire to make a difference propel us forward. **Entrepreneurs**, your innovative spirit and audacious ideas fuel our collaborative efforts. **Researchers**, your quest for discovery enriches our shared knowledge. **Policymakers**, your vision for a better future aligns with our transformative goals.

Thank you for choosing Kimitisik as your partner in shaping a brighter future. Together, let's build, create, and innovate to make a lasting impact on the world around us. Welcome to the journey of meaningful learning and limitless progress.

ABOUT US

We empower others to create impact through innovative education, equipping learners with the tools and stimulating them to take action shaping a brighter tomorrow.

At Kimitisik, our vision is to shake up education, inspiring a world where every learner is empowered with knowledge and a positive attitude to create a meaningful impact. By fostering innovative learning methodologies and building collaborative ecosystems, we aim to shape a future where education transcends boundaries, nurturing a generation of visionary leaders who drive positive change across the globe. Our approach is result-driven and action-oriented, empowering learners to achieve tangible outcomes.

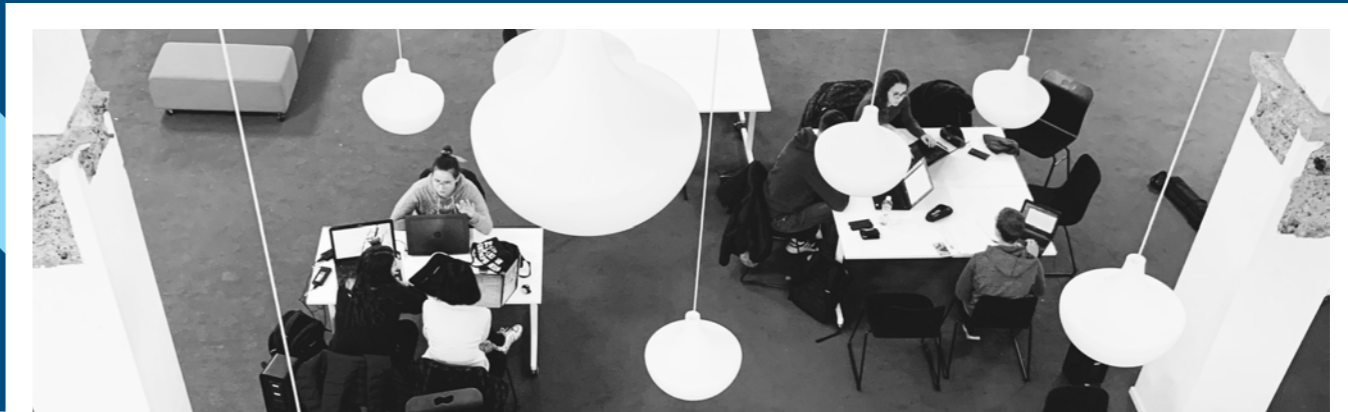

GLOBAL REACH

With activities in over 20 countries globally and a strong presence across continents, we at Kimitisik apply the "follow the sun" principle, ensuring our impact is continuous and our programmes and services benefit learners and educators around the world, no matter the time zone.

CO-CREATION

Co-creation lies at the heart of our approach. We believe in the power of collaboration with our partners, where we join forces to tailor our services and initiatives, creating added value for all stakeholders within their ecosystem by actively engaging and understanding the unique needs of each actor.

A PASSION TO EDUCATE TO INNOVATE AND INNOVATE TO EDUCATE

WAY WE WORK

At Kimitisik, we embrace an agile and experimental approach in the way we work. By incorporating agile processes into our methodologies, we prioritise adaptability and responsiveness, enabling us to adjust to evolving needs and challenges swiftly. We believe in the power of experimentation, and therefore, we actively engage in pilots and trials to test new concepts and formats before scaling up.

Our programs are designed to be versatile, offered in on-site, online, and blended formats, ensuring accessibility and flexibility to cater to diverse learning preferences and needs.

Empowering learners of all ages to continuously develop their skills, knowledge, and passions throughout their lifelong learning journey.

'Yes and ... !'

Fostering a culture of open collaboration and innovative thinking by affirming and building upon each other's ideas, we create an environment that nurtures creativity and fosters teamwork.

'Less is more!'

We wholeheartedly embrace the 'less is more' mentality, recognising the power of simplicity and focusing on achieving tangible outcomes and prioritising what truly matters.

WHAT WE BRING

At Kimitisik, our unwavering dedication lies in the pursuit of transformative education and the relentless drive to foster innovation across diverse sectors. As a dynamic and forward-thinking company, we have honed our expertise in three fundamental pillars that synergistically combine to pave the way towards a brighter, more promising future.

These three pillars are: Education Innovation, Innovation Education and Education Ecosystem Building

TRAIN THE TRAINER

Revolutionising education starts with training educators in innovative methodologies. The key to unlocking the full potential of learners lies in adopting dynamic and engaging teaching approaches.

We equip educators with the knowledge, skills, and tools needed to implement active learning methodologies such as challenge-based learning.

INNOVATION AND ENTREPRENEURSHIP

At Kimitisik, we empower learners to become catalysts for change and bring their ideas to life. Through our programmes, ranging from intensive workshops to full-semester courses, we guide learners in understanding the intricacies of transforming ideas into market-ready solutions.

We advocate a learning-by-doing and a hands-on approach.

ECOSYSTEM BUILDING

With a vast growing network spanning over 20 countries, we specialise in establishing consortia for international projects by connecting organisations, researchers, entrepreneurs, and policymakers, creating a strong foundation for innovation that address societal challenges.

Building robust innovation ecosystems is vital for sustained progress.

OUR TEAM

Our team is a symphony of diversity, harmonizing an array of multicultural backgrounds and professional capabilities. Like a mosaic formed from different pieces, each team member brings a unique set of skills and experiences that contribute to our collective success.

From engineering to marketing, business to design, our team's professional backgrounds span a wide spectrum.

This diversity of expertise allows us to approach projects from various angles, encouraging innovative thinking.

This kaleidoscope of capabilities not only empowers us to deliver tangible results but also cultivates a dynamic learning environment and open-mindedness.

Just as a garden thrives when nurtured by diverse nutrients, our team flourishes through the synergy of our varied professional backgrounds. Our multicultural tapestry serves as a reminder that innovation knows no bounds when individuals from different walks of life come together with a shared vision.

**We Can Do More
When We Work Together**

THE FOUNDERS

The founders embarked on distinct paths of innovation education individually, each driven by a desire to contribute meaningfully to the field. A pivotal moment occurred when a shared project demonstrated the potential for synergistic collaboration. Recognising the amplifying effect of their combined efforts, the founders decided to unify their expertise and resources, forging a collective journey to generate a more pronounced and far-reaching impact.

Ákos R. Wetters

Education Expert and
Technopreneurship Coach

Ákos is a very inquisitive generalist who gained vast international experience in the business and academic world over the past two and a half decades. Since 2008 he also adheres to an entrepreneurial lifestyle.

- Polyglot who loves bicycling from Rotterdam to Budapest every year

Balázs Horváth

Serial Entrepreneur and
Innovation Educator

Data Science researcher in the field of AI in education, with vast experience in mentoring startups, innovators and students. Venturing into the entrepreneurial landscape with a vision to revolutionize the way we learn.

- Recharged by trekking and waking up on mountain tops

Alessandro Tomasi

Instructional Designer and
Grants Expert

Alessandro holds a handful of degrees in engineering: spacing from electronics and telecommunication to manufacturing engineering he keeps up with worldwide grant opportunities.

- Fan of outdoor sports and food, a lot of food (even pineapple on pizza)

The synergy of Ákos' visionary outlook, Balázs' action-oriented approach, and Alessandro's meticulous attention to detail converge harmoniously to reshape the landscape of innovation and education.

EDUCATION INNOVATION

OVERVIEW

We emphasise the increasing need for educators to adopt project-based, problem-centred pedagogical approaches while harnessing engaging and active online methodologies. Empowering educators to curate dynamic learning environments, and hands-on experiences, thereby fostering the development of critical thinking and adaptability. We equip educators with the tools to seamlessly bridge the gap between theoretical knowledge and real-world application

TRAINING SERIES

The "Train the Trainer" format embodies a sophisticated approach to professional development, facilitating reciprocal institutional visits among educators. Through these immersive exchanges, educators collectively collaborate on the refinement of course transformation, drawing upon their shared expertise. In addition, ongoing remote mentoring between these events further enriches this transformative process, fostering a continuous cycle of knowledge enhancement and pedagogical evolution.

SHORT TRAINING

With this condensed yet impactful training experience, our intensive program, available both on-site and online, embodies a potent avenue for professional growth. During these focused sessions, educators converge to delve into strategic pedagogical refinements, sharing insights and collectively shaping course transitions. Mentoring during the training sessions amplifies the learning trajectory, ensuring sustained development and swift adaptation of teaching methodologies. This streamlined approach maximizes time efficiency while fostering a robust environment of collaborative learning and innovation.

TARGET AUDIENCE

Our comprehensive training programs cater to a diverse audience, encompassing educators and trainers from various educational realms. Whether within the university, high school, or vocational contexts, our offerings provide valuable insights and tools for enhancing pedagogical practices. Additionally, our program extends its reach to encompass trainers in non-formal education.

PILOTING

Embracing what we advocate and adhering to the lean methodology, we initiate projects with a pilot phase. This approach aligns with our belief in practical validation, enabling us to fine-tune our collaboration before scaling.

GROWING COMMUNITY

Our expanding community comprises professionals who have undergone our training programs in 16 countries. Engaging in knowledge sharing and collaborative discourse through meetups, embodying a vibrant ecosystem of continuous learning and cross-border exchange.

“
Education is the most powerful weapon which you can use to change the world.

– Nelson Mandela

TARGET AUDIENCE

Our training programs cater to a diverse range of university students, spanning various academic levels including Bachelor's, Master's, and even PhD. Specifically tailored for those with a mainly but not solely STEAM (Science, Technology, Engineering, Arts, and Mathematics) background.

LASTING SOLUTIONS

Our programs are purposefully designed to enhance the likelihood of enduring solutions, ensuring that ideas and teams forged during the project continue to yield lasting impact.

CONTINUOUS SUPPORT

Kimitisik facilitates ongoing support beyond project completion, granting participants access to a robust network and mentorship, a valuable resource that over 16,000 individuals have benefited from, ensuring a sustained impact, growth of the teams and their projects.

“

Innovation education is igniting minds to explore, adapt, and pioneer in a world of ever-evolving possibilities.

– Sir Ken Robinson

OVERVIEW

Whether through interactive workshops, online modules, or immersive boot camps, our Innovation Education Services offer a transformative hands-on learning journey.

At the heart of our approach is the integration of real-world challenges and interdisciplinary learning. We are committed to igniting the spark of innovation within each learner, fostering a generation that is not only equipped to adapt but also to shape the future.

INNOVATION EDUCATION

FORMAL COURSES

These formats encompass a spectrum of tailored experiences designed to meet the diverse needs of learners. Half and full-semester courses offer an in-depth exploration of subjects, providing ample time for skill development. In the hybrid format of online/offline learning, we blend the convenience of digital resources with the richness of in-person interactions. This approach capitalises on flexibility, while ensuring face-to-face connections, creating a well-rounded educational journey.

BOOT CAMPS

Our diverse boot camp formats cater to a range of immersive experiences. Summer and Winter Schools infuse learning with vibrancy. Idea Hackathons drive high-speed innovation, fostering collaboration and rapid problem-solving. Each format creates a unique environment for transformative learning, igniting creativity. Whether it's the energetic pace of a hackathon or the focused immersion of our seasonal schools, our training formats empower learners to become agents of innovation and change.

ECOSYSTEM BUILDING

OVERVIEW

Our specialised services revolve around the serious cultivation and expansion of regional innovation ecosystems. This strategic endeavour entails the deliberate orchestration of a collaborative network, uniting entrepreneurs, startups, investors, researchers, and policymakers within a geographic locale. By offering tailored support, mentorship, and access to resources, we empower these ecosystems to flourish, driving economic development, job creation, and societal progress on a regional scale.

INNOVATION HUBS

Our suite of Consultancy, Training, and Mentoring services is tailor-made to empower regional innovation hubs, capitalising on the distinctive strengths and assets of each locale. Our practical approach transforms strategic vision into actionable endeavours by adeptly mobilising and activating regional and national stakeholders.

Through targeted training and mentorship, we equip these hubs with the skills to navigate challenges, seize opportunities, and catalyse growth.

CONSORTIUM FORMING

Harnessing the power of our expansive Trusted Partner Network spanning 23 countries, which encompasses a strategic alliance of industry leaders, investors, esteemed universities, and policymakers, we adeptly steer the trajectory of innovative projects while ensuring funding.

Our network serves as a catalyst for ideation, project formulation, and the securement of essential funding from a myriad of sources. We orchestrate a symphony of innovation that resonates across borders, industries, and economies.

TARGET AUDIENCE

Organisations vested in regional growth and innovation. These encompass Technology Transfer Offices, which play a pivotal role in bridging academia and industry; Regional Development Agencies, entrusted with driving economic progress; Incubators, nurturing startups to fruition; and other key stakeholders responsible for the holistic development of the region.

GLOBAL - LOCAL FUSION

Our extensive global experience and cultural acumen enrich the regional innovation hubs, infusing a diverse perspective that amplifies their impact on a global stage. With rich cross-cultural insights, we empower these hubs to harness opportunities in an interconnected world.

EXPERIMENTATION AND EXPLORATION

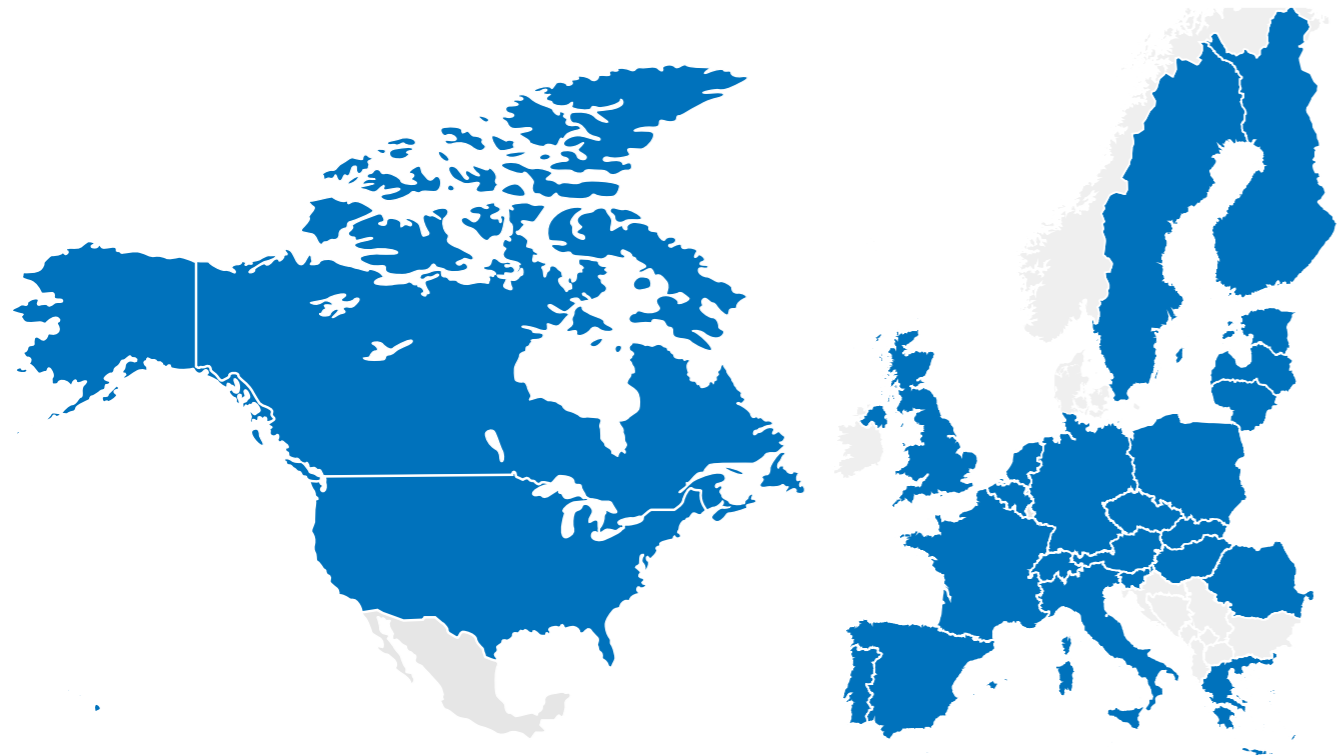

Our distinctive added value lies in initiating projects within a sandbox framework, where controlled experimentation ignites unconventional collaborations, enabling us to refine strategies and optimise outcomes with precision.

“

Innovation ecosystems are the crossroads of creativity and collaboration, where the future takes shape.

– Eric Ries

OUR REACH

16.000+
LEARNERS

Our profound gratitude to the countless learners whose passion drives our educational mission.

20+
COUNTRIES

As we move forward, our aspiration is to further expand our global footprint, reaching even more countries.

150+
PROJECTS

Our journey is marked by numerous impactful projects, showcasing our commitment and passion.

CLIENTS SAID

At the heart of our approach lies a deep commitment to close collaboration with our clients. We believe in forging strong partnerships that enable us to understand their unique needs, ensuring that every solution we deliver is tailor-made to drive their success.

Dario Del Gaizo
EIT Digital student

Taking part in this educational journey has been among the most complete experiences of my university years. It gave me both a formative and entertaining perspective of entrepreneurship thanks to the learning-by-doing approach, that made every day new and exciting. Having the opportunity to truly get in touch with new people, who are now friends is not common.

Inge de Waard
EIT InnoEnergy

The agile coaches from Kimitisik are the perfect answer to the learning demands of our complex professional ecosystem. They merge expert-derived knowledge from the industry with contemporary learning approaches that can be adapted on the spot. Kimitisik enabled us to scale new expertise in no time to our globally located engineering professionals.

Richard Brooks
Coventry University

Kimitisik made everything easy. Responsive and inventive, they demonstrated a thorough understanding of the brief, helped develop the summer school concept as we envisaged it and were both flexible and highly committed to delivery. I could not ask for more and would recommend them in an instance.
