Head of Marketing

Tel: +34 664 25 55 30

E-mail: rcarril@kaizen.com

DESCRIPTION OF THE INICIATIVE

Build a business plan for process transformation across all areas with a double-digit impact on the bottom line. The Value Stream Optimisation program is a focused, data-driven, and step-by-step activity to understand the current situation of your processes, detect your pain points and define a future vision with impact in your P&L

MORE INFO

- Training/ service category: **Market development & Business Strategy**
- Sub- Category: **Business process improvements**
- Format: **Presential & Online**
- Location: **Europe**

TARGET AUDIENCE

- CEO
- Operations Director
- Plant Manager
- Value Chain Director

DESCRIPTION OF THE INICIATIVE

The Strategy Planning program targets top managers who want to define the business's mid-to long-term vital strategic priorities, following a structured, participatory, and scalable approach supported by a continuous improvement culture.

MORE INFO

- Training/ service category: **Market development & Business Strategy**
- Sub- Category: **Business process improvements**
- Format: **Presential & Online**
- Location: **Europe**

TARGET AUDIENCE

- CEO
- Operations Director
- Plant Manager
- Value Chain Director

DESCRIPTION OF THE INICIATIVE

Improve non-quality costs by following a structured approach to eliminate errors, rework, scrap and defects. Develop problem-solving capabilities to identify and eliminate root causes effectively through statistical analysis methodologies.

MORE INFO

- Training/ service category: **Market development & Business Strategy**
- Sub- Category: **Business process improvements**
- Format: **Presential & Online**
- Location: **Europe**

TARGET AUDIENCE

- Middle Management
- Process and Quality Engineer

DESCRIPTION OF THE INICIATIVE

Increase operational productivity through the improvement of work methods and minimal investment. The solutions are focused on reorganizing workflow sequence, improving workstations, reducing unnecessary movements and simplifying tasks.

- Training/ service category: **Market development & Business Strategy**
- Sub- Category: **Business process improvements**
- Format: **Presential & Online**
- Location: **Europe**

TARGET AUDIENCE

- Middle Management
- Department Managers
- Team Leaders

DESCRIPTION OF THE INICIATIVE

Generate a roadmap that will facilitate a significant advancement in the field of digital transformation, with the objective of enhancing competitiveness, improving current processes, and influencing key metrics within the company. The prioritization of initiatives will focus on those that deliver tangible impacts on the company's performance and offer an attractive return on investment.

- Training/ service category: **Market development & Business Strategy**
- Sub- Category: **Business process improvements**
- Format: **Presential & Online**
- Location: **Europe**

TARGET AUDIENCE

- Middle Management
- Department Managers
- Process Engineer

DESCRIPTION OF THE INICIATIVE

The current market context demands increasingly smaller orders, faster delivery times, and presents peaks in demand due to seasonality. Transform your supply chain to enhance its responsiveness to customer demand, improve agility in customer response, and achieve this without negatively impacting productivity.

TARGET AUDIENCE

- Operations Directors
- Plant Managers
- Supply Chain Managers

Consumption optimization for sustainability (energy, water & emissions)

DESCRIPTION OF THE INICIATIVE

Given the growing concern of interested parties for the sustainability of products, processes and business models, companies today define success well beyond the profit generated. Reduce energy consumption, water usage, and minimize emissions from your production processes through a structured methodology.
