## GENERAL PRESENTATION

**Agence Smart Industry** helps companies in their 5.0 projects.

Our digitalization project managers advise and support companies in their **operational digital transformation**, from gathering the needs to the choice and implementation of softwares and digital tools.

Our IT project managers advise professionals on how to **optimize and secure their IT infrastructure**.

## GENERAL PRESENTATION

## **GENERAL PRESENTATION – OUR ADDED VALUE**

Because every company is unique, our project managers – whether in Operations team (OPS) or Information Technology team (IT) – select the **solutions best suited to the needs identified.**

And it is to guarantee this objectivity that **Agence Smart Industry** has chose not to be remunerated on solutions, services or equipment provided par our partners.

Expertise en digitalisation opérationnelle
