# insitu

## in few words

**insitu is a team, an energy and a performance culture that serving companies for over 20 years.** We hire talents according to the skills-firms needs, for the length of time, at the right price.

We're not a temping or a recruitment agency. We place these keys resources in your company during of an assignment, or with a long-term support. 1, 2, or 3 days a week...

We take away the HR problems, the staff management, the training, the de coaching, the hidden costs...

We break this rigid climate to offer a clear and flexible solution that allows companies to develop their business with highly specialised skills that their structure or budget would not allow them to hire.

**Joël Ferraton**
