

## **NGVIA Data Solutions - Services Portfolio**

### **About Us**

Nevi Data Solutions is a cutting-edge technology company specializing in **data analytics, machine learning (ML), and MLOps**. We empower businesses by leveraging data-driven solutions to optimize operations, enhance decision-making, and drive innovation. Our expertise spans various industries, including finance, healthcare, e-commerce, and technology.

### **Our Services**

#### **1. Data Analytics & Business Intelligence**

- Advanced data exploration and descriptive analytics
- Data visualization and interactive dashboard development
- Real-time and batch data processing
- Custom reporting and actionable business insights

#### **2. Data Science & Predictive Analytics**

- Data mining and feature engineering
- Statistical modeling and hypothesis testing
- Predictive analytics and anomaly detection
- Time series forecasting and trend analysis
- Deep learning applications for structured and unstructured data

#### **3. Machine Learning & AI Solutions**

- Supervised and unsupervised learning models
- AI-driven automation and intelligent decision systems
- Natural Language Processing (NLP) and computer vision
- Model training, fine-tuning, and optimization

#### **4. MLOps & Model Deployment**

- Scalable ML model deployment and serving
- Continuous integration and deployment (CI/CD) for ML pipelines
- Automated model monitoring, logging, and performance tracking

### **Why Choose Us?**

✔ **Expertise:** Our team consists of motivated and passionate data scientists and ML engineers. ✔  
**Scalability:** We design solutions that grow with your business. ✔ **Innovation:** We leverage the latest technologies to drive competitive advantage. ✔ **End-to-End Support:** From strategy to implementation and maintenance, we ensure success.
